

## Safe systems of work Tool box talk

### HAZARDOUS SUBSTANCES

**Danger**  
Hazardous  
substances

**Wear personal  
protective  
equipment**

1. Only trained, competent and authorized personnel may use these substances.

2. DO NOT use any chemicals that are not labelled.
3. DO NOT put chemicals in to other containers that are not suitable.
4. MAKE SURE THAT labels are not damaged, removed or covered up.
5. DO NOT store any chemicals in open containers.
6. KEEP ALL chemicals secure and in the proper place.
7. CLEAN UP spillages quickly and safely.
8. If any spillage enters the waterways, rivers or drains inform your Manager or Supervisor so the relevant authorities can be informed.
9. USE rubber gloves and other personal protective equipment when handling hazardous or potentially hazardous chemicals as directed MSDS.
10. Dispose of used chemicals according to the site environmental plan, the manufacturers instructions and applicable laws.

**ALWAYS WORK SAFELY**
