

ABOUT THE EFFC

AUGUST 2020

ABOUT THE EFFC

The Federation of Foundation Contractors represents companies in 17 European countries.

Members are Specialist Foundation Contractors which are organised and represented either through National Federations or by a National Coordinator representing that country.

 - Chris Harnan (Sustainability Working Group Chair)

CODE OF CONDUCT

Standards of Behaviour agreed by the EFFC

This statement of Standards of Behaviour has been developed and adopted by the EFFC. Each National Federation or Group is requested to consider and adopt this Standard.

National Federations or Groups are requested to recommend the Statement to their individual corporate Members for adoption, at an individual level in their market place.

Ethics cannot be enforced. A high ethical standard is a target to be aspired to and worked towards in the improvement of our market place.

Key values

The company undertakes:

- to show integrity towards public and/or private clients
- to observe all relevant legislation and regulations
- not to participate in price fixing or securing contracts to the disadvantage of the public
- to make no payments to clients directly or indirectly related to a contract
- to demonstrate honesty and transparency in pricing, in drawing up contracts and in preparing invoices

- to reject illegal employment practices

Customer satisfaction

The company undertakes to endeavour to ensure:

- on-time delivery of contracted services tailored to the customer's needs
- honesty and frankness in all phases of construction

Job satisfaction

The company undertakes to:

- give employee safety top priority on the construction site
- provide training to employees at all levels of the company

Environmental protection

The company undertakes to:

- encourage the development and application of environmentally friendly

SUSTAINABILITY

Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs.

The EFFC further defines Sustainable Development as:-

Maintenance of a healthy economic environment; prudent use of natural resources; social progress which recognizes the needs of all people; and effective protection of the environment.

The Principles

Consider and promote sustainability in its broad social, economic and environmental context in all aspects of foundation industry related activity

Develop opportunities to make positive contributions to the environment

Promote the elements required for foundation industry stakeholders to engage in productive work, the creation of wealth and a good quality of life for all

Promote good safety, health and well-being combined with personal development throughout the foundation industry

Adopt measures and processes to prevent adverse environmental impacts

EFFC Commitments

The Commitments are divided into three sections: the Environment, stakeholders and the Marketplace

WORKING GROUPS

TECHNICAL WORKING GROUP

The Group reviews European standards and discusses the technical execution of specialist geotechnical works for foundations. The Technical Working Group has two associated Task Groups;

- **EFFC/DFI Concrete Task Group**
- **EFFC/DFI Support Fluids Task Group**

SUSTAINABILITY WORKING GROUP

The newest Working Group to form out of the EFFC. Its focus is to improve levels of sustainability within the geotechnical industry. The Sustainability Working Group has one associated Task Group:

- **EFFC/DFI Carbon Calculator Task Group**

CONTRACTS WORKING GROUP

The Contracts Working Group looks at the commercial issues that are commonly experienced across Europe.

HEALTH AND SAFETY WORKING GROUP

The EFFC Health and Safety Working Group work to improve levels of health and safety during the execution of geotechnical and foundation works.
